Item #

The Phoenix Patio Heater by Dynamic Cooking Systems is created to convert cold, unusable areas into warm and comfortable places for any activity. Functional and novel, The Phoenix becomes a meeting place when entertaining guests. It can complement the warmth of any spa or heated pool during evening swims. For restaurants it is the most cost efficient way to expand seating capacity when the weather turns cool while at the same time, offering a unique accent to your customers dining experience. Hard at work, The Phoenix will provide warmth to those of us needing to get the job done regardless of chilling temperatures. The only patio heater fashioned from polished stainless steel, The Phoenix will be lasting and reliable. We're so sure of ourselves that every Phoenix Patio Heater is covered by one year warranty. Who said that the summers can't be endless?
